

Meetings and Seminars

XVIth International Biennial Conference of Pakistan Paediatric Association will be held in Karachi from 14th-17th February 2002. Many renowned international and national speakers will be highlighting the important issues related to child health. The topics for discussion would not only include important physical illnesses of children but also problems of those children affected by drought in Sindh,

child rights, child labour, recent vaccination strategies etc.

Experts from WHO, UNICEF, USAID, SAVE THE CHILDREN etc, will be participating in this conference. For further information please contact:
