

# Web Review™ Health Gate <http://www.healthgate.com>

Syed Mahmood Ali Shah ( The Aga Khan University, Karachi. )

Pages with reference to book, From 85 To 85

Health Gate - a web site every healthcare professional should be aware of. This gateway to knowledge contains comprehensive resources on health and medicine, from A to Z. Health Gate has a US and UK version online. Web surfers who like more detailed and sophisticated web site with tons of links and resources should stay on the US version of the site (<http://www.healthgate.com>), but the people who need simple solutions will certainly feel easy using the UK site (<http://www.healthgate.co.uk>). Simple, Quick and Useful - Its UK version at <http://www.healthgate.co.uk> is definitely the same as the logo, which appears on it top left. The index page, designed using three columns, starts with their collage followed by health ticker a Java applet which scrolls latest health news. The left column contains links under the heading "Today if Health Gate". It focuses on the latest articles from the Webzines like "Good Parenting" Know Health Tips" and "Healthy Rx". You can send any article directly to anyone from any page. The middle column contains extensive Health Resources. Their Wellness Center Contains comprehensive resources and information on conditions from A to Z. You can either select a disease from the list on the main page or enter any condition or concern in the blank space. Topics are also categorized according to the Parts of the Body and Family Health. The online magazine I-HealthGates healthy living Webzines are the most useful and important part of the web site. It contains in-depth articles and information on common problems and concerns, latest research and expert opinions. The Webzines currently available are Healthy Parenting. Healthy Sexuality. Healthy Traveler and Healthy Rx. It also contains featured articles under the headings of Man, Athlete, Alternative, Woman, Eating, Mind, Parenting, Sexuality, name a topic and its there. The last column on the right side contains search options. You can search the Medline, Cancerlit, Ethiesline and many more. An advanced search option is also available. HealthGate at <http://www.healthgate.com> is truly a web site meant for everyone.
