

INAUGURATION OF OTSUKA PAKISTAN LIMITED

Pages with reference to book, From 121 To 121

A very impressive ceremony was witnessed on the occasion of the inauguration of Otsuka Pakistan Ltd's factory which will produce intravenous solutions in Pakistan. It is a very positive step forward towards the goal of basic manufacturing in Pakistan. This factory is intended for producing intravenous solutions which perform a crucial life saving role. Japan based Otsuka boasts a 50% share of the domestic IV solution market while it has been a supplier of these solutions to Pakistan for over more than 30 years. It has the biggest installed capacity of 6 million bottles per year, which may be easily increased to 10 million bottles.

Federal Health Minister, Amir Haider Kazmi addressing the inaugural ceremony of Otsuka Pakistan Ltd. sitting on the stage are (left to right). Mr. Mehtabuddin Feroz, Dr. Tariq Sohail, Mr. Yoshimstu Otsuka, Ambassador. of Japan and Indonesia.

This modern pharmaceutical plant is the outcome of 16 months of strenuous efforts, whole hearted and devoted cooperation of Otsuka Pharmaceutical Ltd. Japan, P.T. Otsuka Indonesia and Feroze Group in Pakistan and members of Otsuka Pakistan. The inauguration ceremony was performed by Mr. Syed Amir Haider Kazmi, Federal Minister for Health. Dr. Tariq Sohail, Health Advisor to the Prime Minister, Ambassadors of Japan and Indonesia, distinguished members of diplomatic corps, prominent members of the medical profession and other leading industrialists as well as businessmen were present on the occasion.
