

HAEMOGLOBINOPATHIES IN PAKISTAN

Pages with reference to book, From 275 To 276

Sir,

Name of Place Haemoglobinopathy Author Reported Rahimtoola (1960) ¹ Karachi Cooley's anaemia

Saleem (1974) ² Rawalpindi HbD, HbE, HbS

Farzana et al(1975) ³ Karachi Thalassemia trait

Hashmi et al (1975) ⁴ Karachi Beta Thalassemia trait

Hashnii et al (1976) ⁵ Karachi Thalassemia major

Rahimtoola (1981) ⁶ Karachi Thalassemia major

PMRC (1982) ⁷ Multan Thalassemia major

Ahmed et al (1986) ⁸ Karachi Abnormal HaemoglobinHb -Karachi.

In Multan by the end of 1982 fiftysix cases of thalassaemia were collected. Fiftyfive were of thalassaemia major and one rare case of Hb-Sc disease with Priapism.

Noor Ahmad Noor, A.W. Kazi, Ghulam Mohiuddin, M. Masood, Zulfiqar All
Deptt. of Medicine, Nishtar Medical College, Multan.

The pattern of haemoglobinopathies so far been reported from various Centres in Pakistan is shown in the table.
