

FREE MEDICAL ADVICE

Pages with reference to book, From 107 To 107

Madam,

The news in P.M.J. 21st February 1980 that the members of the P.M.A. Lahore branch have volunteered to provide free medical advise to the needy patients for one hour every day is a good news and a bold step taken by our colleagues in Lahore.

I propose that our colleagues in Karachi should join the colleagues in Lahore and announce one hour free medical advice daily and prove that doctor's basic aim is to serve the ailing people.
